PROFESSIONAL SUMMARY

Entry-level Software Developer with a strong foundation in Python, SQL/MySQL, REST API and backend concepts, HTML, CSS, JavaScript, and React.js. Hands-on experience building database-driven applications and a FastAPI backend with frontend integration. Familiar with Git/GitHub, cloud deployment platforms, and AI-assisted development tools. Strong problem-solving, analytical thinking, teamwork, and willingness to learn new technologies.

TECHNICAL SKILLS

Programming: Python, JavaScript
Web Development: HTML5, CSS3, Bootstrap, React.js
APIs & Backend: REST API Concepts, Fast API, Backend Integration,
SQL & Databases: SQL, CRUD Operations
AI & Development Tools: ChatGPT, Claude, Gemini, Perplexity AI
Version Control: Git, GitHub
Cloud Deployment: Vercel, Render.com, Hugging Face Spaces
Other Tools: VS Code, Anaconda, Figma, Canva

INTERNSHIP EXPERIENCE

Front-End Developer Intern | VISWAM.AI (Swecha) | May–Jun 2025 | 4 Weeks

- Built responsive front-end components using HTML5, CSS3, JavaScript and React.js following modern UI/UX practices.
- Collaborated with the team to integrate front-end designs with project requirements using Git and GitHub workflows.

PROJECTS

Product Expiry Tracker

- Developed a database-driven application to monitor inventory items, track expiry dates, and send automated alerts for products nearing expiry.
- Implemented CRUD operations using SQLite/MySQL to store product details, expiry dates, and category information with real-time status tracking.
- Created a dashboard interface to display expiry status for quick identification and management.

Detection of AI-Generated Text using Deep Learning

- Developed an AI-vs-Human text detection web application using a RoBERTa-based classifier with confidence scoring and long-text chunking.
- Built a FastAPI backend integrated with a responsive frontend, including real-time analysis, result visualization, progress indicators, and robust error handling.
- Implemented reference-dataset matching and confidence-band logic to improve handling of short, noisy, and mixed-content inputs.

EDUCATION

B.Tech – AIML — J.B. Institute of Engineering and Technology, Hyderabad | 2023–2026 | CGPA: 8.34
Diploma – Civil Engineering — Nalgonda Polytechnic | 2020–2023 | CGPA: 8.97
SSC (10th) — Telangana State Model School, Gundlapally | 2020 | GPA: 10.0

CORE STRENGTHS

Problem Solving • Logical & Analytical Thinking • Programming Concepts • Team Collaboration • Communication • Willingness to Learn & Adapt • Positive Work Ethic

LANGUAGES

Telugu (Native) • English (Intermediate) • Hindi (Basic)
